### **COMPANY STATEMENT.**

#### **F.D.A. ( Food & Drug Administration ) STATUS.**

##### **Rubber Products Supplied By Specialised Engineering Products.**

All rubber products that are specified by Specialised Engineering Products as suitable for F.D.A. applications are manufactured using only F.D.A. permitted ingredients. These materials are processed to ensure that the parts produced meet the extractable limits set out on 21CFR 177.2600 - This regulation deals with rubber articles intended for repeated use in contact with food.

All parts manufactured as F.D.A. compliant will have, from ourselves, a formal, comprehensive, traceable route, from finished products, back to the original ingredients used to formulate the raw compound. Such products will be supported by a Certificate of Conformity to ISO 9002.

Only those suppliers who offer Specialised Engineering Products the same supported documentation to a minimum quality standard of ISO 9002, will be used for any associated F.D.A. works / materials.

Dear Sir

**RE: SP70-9-1 Batch IT1783- (70 HTS Blue Silicone Bellows/Drip Cups)**

Following your request for further information on the above silicone compound we can confirm the following:

- The compound has high tear strength.
- The ingredients are F.D.A. permitted and so makes the compound suitable for food contact applications.
- The ingredients used were
  - H.S.70 Silicone
  - S2400 Blue 3 pigment
  - S2400 White 3 pigment
  - Dicap Peroxide

We trust the above information meets with your approval.

Yours faithfully,

**A P SMITH - MANAGING DIRECTOR**
